

Helping Holly

“Our little friend Holly has been diagnosed with cancer. Help us raise money for her to receive the best medical attention so she can return to school with her friends as soon as possible.”

Dear Sir/Madam

I am writing to you in the hope that you can assist us in raising funds for a local Doreen girl who has been diagnosed with cancer.

Holly Lynch's world was turned upside down in October when doctors discovered a large tumor in her stomach.

Instead of counting down the days to Christmas, sharing holiday play dates with friends and returning to school with her classmates, the bubbly 10-year-old has spent the past months in and out of hospital where she is receiving a cocktail of powerful drugs to fight her illness.

Holly's friends have banded together to organise a fundraising evening on April 18 to raise money for Holly to receive the best medical care and get her back to school with her friends as quickly as possible.

We would like to ask your company to assist us in raising these funds by providing a product that we could raffle or include in our silent auction on the night.

In return for your generous sponsorship, we will display your company logo on the evening and on promotional material about the raffle/silent auction.

Thank you for taking the time to read our letter. I hope that you are able to support our cause. Please contact Jenny Howard on 0419 514 706 to arrange collection of your generous donation.

Helping Holly Fundraising Evening
